COMPOSED AND PRINTED BY THE UNIVERSITY OF CHICAGO PRINTING DEPARTMENT
CHICAGO, ILLINOIS, U.S.A.
PUBLISHED BY THE UNIVERSITY OF CHICAGO PRESS

TABLE OF CONTENTS

1–6 WATER RELATIONS OF FLOWERING OF *AGAVE DESERTI*
Park S. Nobel

7–12 THE EFFECTS OF TEMPERATURE TREATMENT ON PHOTOSYNTHESIS OF PITCH PINE FROM NORTHERN AND SOUTHERN LATITUDES
F. Thomas Ledig, Joseph G. Clark, and Allan P. Drew

13–17 CARBOHYDRATE ACCUMULATION IN LEAVES AND STEMS OF 'VALENCIA' ORANGE AT PROGRESSIVELY COLDER TEMPERATURES
G. Yelenosky and C. L. Guy

18–28 EFFECTS OF DIKEGULAC, A NEW GROWTH REGULATOR, ON APICAL GROWTH AND DEVELOPMENT OF THREE COMPOSITAE
Tova Arzee, Haviva Langenauer, and J. Gressel

29–34 THE MOVEMENT OF INTEGUMENTARY HAIRS IN *BLEPHARIS CILIARIS* (L.) BURTT
Yitzchak Gutterman and Allan Witztum

35–40 COMPARATIVE RESPONSE OF *PYLAISIELLA SELWYNII* TO *AGROBACTERIUM* AND *RHIZOBIUM* SPECIES
Luretta D. Spiess, Barbara B. Lippincott, and James A. Lippincott

41–45 ULTRASTRUCTURAL AND HISTOCHEMICAL CHANGES DURING THE GERMINATION OF *CATTLEYA AURANTIACA* (ORCHIDACEAE)
Charles R. Harrison

46–51 METHYLTRANSFERASE ACTIVITY IN DRY AND GERMINATING WHEAT SEEDLINGS
Betty D. Allamong and Lila Abrahamson

52–55 DEVELOPMENTAL ASPECTS OF LEAF BLADE HYPONASTY
Alice Bourke Hayes

56–63 HYBRIDS OF *DAUCUS GINGIDIUM* WITH CULTIVATED CARROTS (*D. CAROTA* SUBSP. *SATIVUS*) AND *D. CAPILLIFOLIUS*
Gilbert D. McCollum

64–70 THE *FAGUS GRANDIFOLIA–ACER SACCHARUM–PODOPHYLLUM PELTATUM* ASSOCIATION IN NORTHEASTERN OHIO
William F. Pell and Richard N. Mack

71–79 EVALUATION OF SEQUENCE AND RATE OF LATERAL-ROOT INITIATION IN *PONTEDERIA CORDATA* L. BY MEANS OF COLCHICINE INHIBITION OF CELL DIVISION
W. A. Charlton

80–101 STRUCTURE AND SYMMETRY OF SPECIES OF THE ASPLUNDIA GROUP (CYCLANTHACEAE) HAVING MONOPODIAL VEGETATIVE AXES: *SCHULTESIOPHYTUM CHORIANTHUM, DICRANOPYGIUM* SP. NOV., *ASPLUNDIA RIGIDA*, AND *THORACOCARPUS BISSECTUS*
George J. Wilder

102–111 STEM PHLOEM OF A MIDDLE PENNSYLVANIAN *LEPIDODENDRON*
D. A. Eggert and N. Y. Kanemoto

112–118 FOSSIL WOOD FROM AN UPPER MIOCENE LOCALITY IN NORTHEASTERN COLORADO
Elisabeth F. Wheeler and Lawrence C. Matten

119–122 PHYSIOLOGY OF POLYPLOID PLANTS: DNA, RNA, PROTEIN, AND ABSCISIC ACID IN AUTOTETRAPLOID AND DIPLOID TOMATO UNDER LOW AND HIGH SALINITY
M. Tal

123–128 SOME RESPONSES OF *CHONDRUS CRISPUS* TO LIGHT. I. PIGMENTATION CHANGES IN THE NATURAL HABITAT
Cornelis Rhee and Winslow R. Briggs

129–137 RELATIONSHIP BETWEEN GROWTH AND NITROGEN ACCUMULATION FOR VEGETATIVE COTTON AND SOYBEAN PLANTS
C. David Raper, Jr., Lawrence R. Parsons, David T. Patterson, and Paul J. Kramer

138–149 ISOLATION AND CHARACTERIZATION OF THE LIPID RESERVE BODIES, SPHEROSOMES, FROM ALEURONE LAYERS OF WHEAT
Carole L. Jelsema, D. James Morré, Manfred Ruddat, and Chris Turner

150–152 PENETRATION AND DISTRIBUTION OF DIMETHYL SULFOXIDE-^{35}S IN POTATO TUBERS
G. G. Dimalla and J. van Staden

153–158 EFFECT OF MALFORMIN ON THE GROWTH, DEVELOPMENT, AND BEHAVIOR OF *PHASEOLUS VULGARIS* L.
Roy W. Curtis and Thomas J. Buckhout

159–167 PHYSIOLOGICAL RESPONSES TO IRRIGATION IN *OPUNTIA BASILARIS* ENGELM. & BIGEL.
Zac Hanscom III and Irwin P. Ting

168–173 COMPETITIVE EXPLOITATION OF SOIL WATER BY FIVE EASTERN NORTH AMERICAN TREE SPECIES
James A. Bunce, Lee N. Miller, and Brian F. Chabot

174–182 MATURITY-DORMANCY RELATIONSHIPS IN ATTACHED AND DETACHED SEEDS OF *MEDICAGO LUPULINA* L. (BLACK MEDICK)
S. S. Sidhu and P. B. Cavers

183–191 INTRASPECIFIC CONSTANCY OF FLORAL NECTAR AMINO ACID COMPLEMENTS
Herbert G. Baker and Irene Baker

192–205 MINERAL ELEMENT COMPOSITION OF PERENNIAL VEGETATION IN RELATION TO SOIL TYPES IN THE NORTHEASTERN CORNER OF THE WESTERN DESERT OF EGYPT
A. A. El-Ghonemy, A. El-Gazzar, A. Wallace, F. Kishk, and E. M. Romney

206–212 MORPHOLOGY, ANATOMY, AND RELATIONSHIP OF EXTRAFLORAL NECTARIES AND HYDATHODES IN TWO SPECIES OF *IMPATIENS* (BALSAMINACEAE)
Thomas S. Elias and Hellen Gelband

213–218 THE ROLE OF THE MULTIPLE EPIDERMIS IN FOLIAR SUCCULENCE OF *PEPEROMIA* (PIPERACEAE)
Robert B. Kaul

219–235 STRUCTURE AND SYMMETRY OF SPECIES OF THE ASPLUNDIA GROUP (CYCLANTHACEAE) HAVING SYMPODIAL VEGETATIVE AXES: *EVODIANTHUS FUNIFER* AND *CARLUDOVICA PALMATA*
George J. Wilder

236–247 THE COMPARATIVE MORPHOLOGY AND DEVELOPMENT OF *ISOETES*. I. LOBE AND FURROW DEVELOPMENT IN *I. TUCKERMANII* A. BR.
Eric E. Karrfalt and Donald A. Eggert

248–254 DEVELOPMENT OF SYMPODIAL AND THORNY SHOOT AXIS OF *CARISSA CONGESTA*
J. J. Shah and P. H. V. Vasudeva Rao

255–260 QUALITATIVE CHANGES OF THE KUNITZ TRYPSIN INHIBITOR IN SOYBEAN SEEDS DURING GERMINATION AS DETECTED BY ELECTROPHORESIS
J. H. Orf, D. W. Mies, and T. Hymowitz

261–265 EFFECT OF SENESCENCE ON LEVELS OF FREE ABSCISIC ACID AND WATER POTENTIALS IN COTYLEDONS OF BEAN
E. B. Dumbroff, D. C. W. Brown, and J. E. Thompson

266–269 NONPOLAR MOVEMENT OF THIAMINE IN STEMS OF TOMATO AND ROOTS OF PEA
W. P. Jacobs and P. J. DeMuth

270–275 ZEAXANTHIN EPOXIDATION INHIBITION BY EPTC
R. E. Wilkinson

276–285 ULTRASTRUCTURAL DIFFERENCES IN LEAF CELLS OF SOME *SOLANUM* SPECIES IN RELATION TO THEIR FROST RESISTANCE
P. Chen, P. H. Li, and W. P. Cunningham

286–290 THE FORMATION OF CHROMOPLASTS IN FRUITS OF *CUCURBITA MAXIMA* DUCH. *'TURBANIFORMIS'*
N. Ljubešić

291–297 CALLUS, CELL SUSPENSIONS, AND ORGANOGENESIS IN TISSUE CULTURES OF PURPLE NUTSEDGE (*CYPERUS ROTUNDUS*)
Jack B. Fisher

298–304 IN VITRO CULTURE OF WESTERN REDCEDAR (*THUJA PLICATA* DONN). I. PLANTLET FORMATION
Warren K. Coleman and Trevor A. Thorpe

305–311 EXPERIMENTAL STUDIES ON LEAFY SPURGE (*EUPHORBIA ESULA* L.). III. XYLEM DEVELOPMENT IN RELATION TO THE HYPOCOTYLARY BUD GROWTH
M. V. S. Raju and William N. Marchuk

312–320 INFLORESCENCE DEVELOPMENT OF PINEAPPLE (*ANANAS COMOSUS* [L.] MERR.) INDUCED TO FLOWER WITH ETHEPHON
D. P. Bartholomew

321–328 MORPHOLOGICAL RESPONSE OF SOYBEANS AS GOVERNED BY PHOTOPERIOD, TEMPERATURE, AND AGE AT TREATMENT
Judith F. Thomas and C. David Raper, Jr.

329–333 ONTOGENY OF PERIDERM AND PHELLOGEN ACTIVITY IN *CERATONIA SILIQUA* L.
Tova Arzee, Ehud Arbel, and Lila Cohen

334–351 WOOD ANATOMY OF OPUNTIAS WITH CYLINDRICAL TO GLOBULAR STEMS
Arthur C. Gibson

352–356 *PREPINUS PARLINENSIS*, SP. NOV., FROM THE LATE CRETACEOUS OF NEW JERSEY
Coleman R. Robison

357–368 THE COMPARATIVE MORPHOLOGY AND DEVELOPMENT OF *ISOETES* L. II. BRANCHING OF THE BASE OF THE CORM IN *I. TUCKERMANII* A. BR. AND *I. NUTTALLII* A. BR.
Eric E. Karrfalt and Donald A. Eggert

369–375 GENOME RELATIONS OF SOUTH AMERICAN *AGROPYRON TILCARENSE* WITH NORTH AMERICAN AND ASIAN *AGROPYRON* SPECIES
Douglas R. Dewey

377–384 COMPUTER SIMULATION OF BRANCHING PATTERN AND GEOMETRY IN *TERMINALIA* (COMBRETACEAE), A TROPICAL TREE
Jack B. Fisher and Hisao Honda

385–392 THE DETERMINATION OF STOMATA PATTERN AND FREQUENCY IN *ANAGALLIS*
A. Marx and T. Sachs

393–401 THE GENERATION AND ELABORATION OF PRIMARY VASCULAR TISSUE PATTERNS IN ROOTS OF *ZEA*
Lewis J. Feldman

402–408 CELL WALL PERFORATION IN LATICIFERS OF *PAPAVER SOMNIFERUM* L.
Craig L. Nessler and Paul G. Mahlberg

409–412 THE SPERMATOZOID OF *ZAMIA CHIGUA* SEEM.
Knut Norstog

413–419 THE ULTRASTRUCTURE OF KRANZ CELLS IN THE FAMILY CYPERACEAE
R. C. Carolin, S. W. L. Jacobs, and Maret Vesk

420–427 DEVELOPMENT AND CYTOLOGY OF *ZOPFIA RHIZOPHILA*
F. A. Uecker

428–433 PHOTOCONTROL OF GERMINATION OF SPORES OF THE FERN *POLYPODIUM AUREUM*
Luretta D. Spiess and Marianne G. Krouk

434–437 ROOT INITIATION IN CUTTINGS OF *PINUS RADIATA* SEEDLINGS: EFFECTS OF AROMATIC AMINO ACIDS AND SIMPLE PHENYLPROPANOIDS
Dale R. Smith and Trevor A. Thorpe

438–447 PHYSIOLOGICAL STUDIES OF MECHANICALLY STIMULATED MOTOR RESPONSE OF FLOWER PARTS. I. CHARACTERIZATION OF THE THIGMOTROPIC STAMENS OF *PORTULACA GRANDIFLORA* HOOK.
M. J. Jaffe, C. Gibson, and R. Biro

448–452 GENOTYPIC VARIATION FOR SENSITIVITY TO HIGH TEMPERATURE IN THE TOMATO: POLLINATION AND FRUIT SET
J. Rudich, E. Zamski, and Yael Regev

453–456 POLYMORPHISM IN *SORASTRUM:* PRODUCTION OF UNICELLS
Joseph S. Davis and Patricia S. Ashton

457–464 INTERACTIONS AMONG PHENOLICS AND PEROXIDASE ISOZYMES
O. P. Srivastava and R. B. van Huystee

465–467 ON THE SITE OF TANNIN SYNTHESIS IN PLANT CELLS
R. A. Parham and H. M. Kaustinen

468–473 THE EFFECTS OF SOME HERBICIDES ON NITROGENASE ACTIVITY AND CARBON FIXATION IN TWO SUBARCTIC LICHENS
S. Kallio and R. E. Wilkinson

474–478 CAM, TRANSPIRATION, AND ADAPTIVE MECHANISMS TO XERIC ENVIRONMENTS IN THE SUCCULENT CUCURBITACEAE
P. De Luca, A. Alfani, and A. Virzo De Santo

479–489 DISTRIBUTIONAL PATTERN OF *THYMELAEA HIRSUTA* (L.) ENDL. AND ASSOCIATED SPECIES ALONG THE MEDITERRANEAN COAST OF EGYPT
A. A. El-Ghonemy, K. Shaltout, W. Valentine, and A. Wallace

490–497 THE USE OF WATER AND MINERALS BY EVERGREEN AND DECIDUOUS SHRUBS IN OKEFENOKEE SWAMP
William H. Schlesinger and Brian F. Chabot

498–501 THE RELATIONSHIP BETWEEN SOIL WATER POTENTIAL AND PLANT WATER POTENTIAL IN TWO INLAND HALOPHYTES UNDER FIELD CONDITIONS
Irwin A. Ungar

502–511 CHROMOSOMES IN THE *ONCOCYCLUS* IRISES
Michael Avishai and Daniel Zohary

512–521 ISOENZYME IDENTIFICATION OF *PICEA GLAUCA, P. SITCHENSIS,* AND *P. LUTZII* POPULATIONS
Donald L. Copes and Roy C. Beckwith

GENERAL INDEX

A

ABA: effect of senescence on free ABA levels in cotyledons of bean 261; in tomato, high salinity 119
Abrahamson, Lila, Methyltransferase activity in dry and germinating wheat seedlings 46
Abscisic acid, *see* ABA
Abscission, malformin 153
Acer saccharum, association with Fagus grandifolia and Podophyllum peltatum in northeastern Ohio 64
Agave deserti, water relations 1
Agrobacterium, effects on Pylaisiella selwynii development 35
Agropyron, genome relations of South American A. tilcarense with North American and Asian species 369
Aleurone of wheat 138
Alfani, A., CAM, transpiration, and adaptive mechanisms to xeric environments in the succulent Cucurbitaceae 474
Algae: Chondrus crispus, pigment change 123; Sorastrum, unicell formation 453
Allamong, Betty D., Methyltransferase activity in dry and germinating wheat seedlings 46
Alnus rugosa, competition for soil water 168
Amino acids: effect on rooting in Pinus seedlings 434; intraspecific constancy in floral nectar 183
Anagallis, stomata pattern 385
Ananas comosus, inflorescence development induced to flower with ethephon 312
Anastomosis, laticifer, Papaver 402
Anatomy, of extrafloral nectaries and hydathodes in Impatiens scabrida and I. balfourii 206
Apical dominance: Carissa 248; dikegulac 18; Euphorbia 305
Apical growth and development, affected by dikegulac in Zinnia, Helianthus, and Chrysanthemum 18
Arachis hypogaea, interactions among phenolics and peroxidase isozymes 457
Arbel, Ehud, Ontogeny of periderm and phellogen activity in Ceratonia siliqua L. 329
Arzee, Tova, Effects of dikegulac, a new growth regulator, on apical growth and development of three Compositae 18; Ontogeny of periderm and phellogen activity in Ceratonia siliqua L. 329
Ascocarp development, Zopfia 420
Ashton, Patricia S., Polymorphism in Sorastrum: production of unicells 453
Asplundia rigida, structure and symmetry 80
Atriplex triangularis, relationship between soil water and plant water potentials 498
Auxin: tissue culture organogenesis, nutsedge 291; tissue culture, Thuja plicata 298; transport, bean leaf hyponasty 52
Avishai, Michael, Chromosomes in the Oncocyclus irises 502
Axillary branches, soybean, photoperiod, temperature 321
Axillary bud: effect of dikegulac on growth 18; thorn development 248

B

Baker, Herbert G., Intraspecific constancy of floral nectar amino acid complements 183
Baker, Irene, Intraspecific constancy of floral nectar amino acid complements 183
Bartholomew, D. P., Inflorescence development of pineapple (Ananas comosus [L.] Merr.) induced to flower with ethephon 312
Bean, *see* Phaseolus vulgaris
Beckwith, Roy C., Isoenzyme identification of Picea glauca, P. sitchensis, and P. lutzii populations 512
Beech-maple climax community 64
Biro, R., Physiological studies of mechanically stimulated motor responses of flower parts. I. Characterization of the thigmotropic stamens of Portulaca grandiflora Hook. 438
Blepharis ciliaris, movement of integumentary hairs 29
Branching pattern, computer simulation 377
Briggs, Winslow R., Some responses of Chondrus crispus to light. I. Pigmentation changes in the natural habitat 123
Brown, D. C. W., Effect of senescence on levels of free abscisic acid and water potentials in cotyledons of bean 261
Buckhout, Thomas J., Effect of malformin on the growth, development, and behavior of Phaseolus vulgaris L. 153
Bud, adventitious, tissue culture 298
Bud growth, apical dominance 305
Bunce, James A., Competitive exploitation of soil water by five eastern North American tree species 168

C

Cactus, Opuntia, wood anatomy 334
Callose, Lepidodendron 102
Callus, in tissue cultures of Cyperus rotundus 291
CAM: in the Cucurbitaceae 474; of Agave deserti 1; responses to irrigation in Opuntia basilaris 159
Carbohydrate, accumulation in leaves and stems of orange, temperature effect 13
Carbohydrate supply, nitrogen absorption 129
Carissa congesta, development of sympodial and thorny shoot axis 248
Carludovica palmata, morphology 219
Carolin, R. C., The ultrastructure of Kranz cells in the family Cyperaceae 413
Carotenoid, herbicide effect 270
Cattleya aurantiaca, ultrastructural and histochemical changes during germination 41
Cavers, P. B., Maturity-dormancy relationships in attached and detached seeds of Medicago lupulina L. (black medick) 174
Ceratonia siliqua, ontogeny of periderm and phellogen activity 329
C_4 photosynthesis, Kranz cells, Cyperus 413
Chabot, Brian F., Competitive exploitation of soil water by five eastern North American tree species 168; The use of water and minerals by evergreen and deciduous shrubs in Okefenokee Swamp 490
Charlton, W. A., Evaluation of sequence and rate of lateral-root initiation in Pontederia cordata L. by means of colchicine inhibition of cell division 71
Chen, P., Ultrastructural differences in leaf cells of some Solanum species in relation to their frost resistance 276
Chlorogenic acid, rooting, pine cuttings 434
Chlorophyll: Chondrus crispus 123; low temperature in orange 13
Chloroplast: chromoplast formation in Cucurbita 286; structure in Cyperaceae 413
Chlorosis, dikegulac effect 18
Chondrus crispus, response to light 123
Chromoplasts, formation in fruits of Cucurbita 286
Chromosome pairing, South American Agropyron 369
Chromosomes, in Oncocyclus irises 502
Chrysanthemum, effects of dikegulac on apical growth and development 18
Citrus sinensis, carbohydrate accumulation in leaves and stems at progressively colder temperatures 13
Clark, Joseph G., The effects of temperature treatment on photosynthesis of pitch pine from northern and southern latitudes 7

Cohen, Lila, Ontogeny of periderm and phellogen activity in Ceratonia siliqua L. 329
Colchicine, lateral-root initiation, Pontederia 71
Cold acclimation, Solanum, ultrastructure 276
Cold hardening, orange 13
Coleman, Warren K., In vitro culture of Western Redcedar (Thuja plicata Donn). I. Plantlet formation 298
Copes, Donald L., Isoenzyme identification of Picea glauca, P. sitchensis, and P. lutzii populations 512
Cork formation, Ceratonia siliqua 329
CO_2 uptake: drought adaptation 168; in Pinus and temperature acclimation 7; Opuntia 159
Crassulacean acid metabolism, *see* CAM
Crozier formation, Zopfia 420
Cucurbitaceae, CAM, transpiration, and adaptation 474
Cucurbita maxima 'turbaniformis,' formation of chromoplasts in fruits 286
Cunningham, W. P., Ultrastructural differences in leaf cells of some Solanum species in relation to their frost resistance 276
Curtis, Roy W., Effect of malformin on the growth, development, and behavior of Phaseolus vulgaris L. 153
Cuticle, water retention, Peperomia 213
Cycad, sperm size 409
Cyperaceae, Kranz cells 413
Cyperus rotundus, callus, cell suspensions, and organogenesis in tissue cultures 291
Cytokinin: effect on fern spore germination 428; tissue culture, Thuja plicata 298
Cytology, of Zopfia rhizophila 420

D

Daucus, hybrids of D. gingidium with D. carota subsp. sativus and D. capillifolius 56
Davis, Joseph S., Polymorphism in Sorastrum: production of unicells 453
De Luca, P., CAM, transpiration, and adaptive mechanisms to xeric environments in the succulent Cucurbitaceae 474
De Muth, P. J., Nonpolar movement of thiamine in stems of tomato and roots of pea 266
Dewey, Douglas R., Genome relations of South American Agropyron tilcarense with North American and Asian Agropyron species 369
Dicranopygium sp. nov., structure and symmetry 80
Dikegulac, effects on apical growth and development of Zinnia, Helianthus, and Chrysanthemum 18
Dimalla, G. G., Penetration and distribution of dimethyl sulfoxide-^{35}S in potato tubers 150
DMSO, distribution in potato tubers 150
DNA, in tomato in high salinity 119
DNA synthesis, inhibited by dikegulac 18
Dormancy, Medicago seed 174
Drew, Allan P., The effects of temperature treatment on photosynthesis of pitch pine from northern and southern latitudes 7
Drought adaptation, CO_2 uptake 168
Drought, physiological, in swamp plants 490
Dumbroff, E. B., Effect of senescence on levels of free abscisic acid and water potentials in cotyledons of bean 261

E

Eggert, D. A., Stem phloem of a Middle Pennsylvanian Lepidodendron 102
Eggert, Donald A., The comparative morphology and development of Isoetes L.: I. Lobe and furrow development in I. tuckermanii A. Br. 236; II. Branching of the base of the corm in I. tuckermanii A. Br. and I. nuttallii A. Br. 357
Electrophoresis: detection of changes of Kunitz trypsin inhibitor in soybean seeds during germination 255; identification of isoenzymes in Picea 512
El-Gazzar, A., Mineral element composition of perennial vegetation in relation to soil types in the northeastern corner of the western desert of Egypt 192
El-Ghonemy, A. A., Distributional pattern of Thymelaea hirsuta (L.) Endl. and associated species along the Mediterranean coast of Egypt 479; Mineral element composition of perennial vegetation in relation to soil types in the northeastern corner of the western desert of Egypt 192
Elias, Thomas S., Morphology, anatomy, and relationship of extrafloral nectaries and hydathodes in two species of Impatiens (Balsaminaceae) 206
Embryo, seed dormancy 174
Epidermis, leaf succulence, Peperomia 213
Ethephon, effect on inflorescence development in pineapple 312
Ethylene, pineapple flowering 312
Euphorbia esula, xylem development in relation to hypocotylary bud growth 305
Evodianthus funifer, morphology 219

F

Fagus grandifolia, association with Acer saccharum and Podophyllum peltatum in northeastern Ohio 64
Feldman, Lewis J., The generation and elaboration of primary vascular tissue patterns in roots of Zea 393
Fern spore germination, photocontrol 428
Ferulic acid, rooting, pine cuttings 434
Fisher, Jack B., Callus, cell suspension, and organogenesis in tissue cultures of purple nutsedge (Cyperus rotundus) 291; Computer simulation of branching pattern and geometry in Terminalia (Combretaceae), a tropical tree 377
Floral nectar, intraspecific constancy of amino acids 183
Flower primordia, soybean, photoperiod and temperature 321
Flowering: malformin effect 153; pineapple, ethylene 312
Fraxinus pennsylvanica, competition for soil water 168
Frost resistance, in some Solanum species 276
Fruit formation, malformin 153
Fruit set, temperature and genotype in tomato 448
Fungal development, Zopfia 420

G

Gametophore formation, effect of Agrobacterium and Rhizobium 35
Gas exchange, Opuntia 159
Gelband, Hellen, Morphology, anatomy, and relationship of extrafloral nectaries and hydathodes in two species of Impatiens (Balsaminaceae) 206
Genomes, relation of South American Agropyron tilcarense with North American and Asian Agropyron species 369
Germination: of spores of Polypodium aureum 428; seed dormancy 174; trypsin inhibitor 255; ultrastructural and histochemical changes in Cattleya aurantiaca 41; wheat, methyltransferase 46
Gibberellin: effect on fern spore germination 428; effect on wheat aleurone 138
Gibson, Arthur C., Wood anatomy of opuntias with cylindrical to globular stems 334
